\* The visit was in the company of Olivier MERCOLI Director Cité de l'Océan and Aquarium of Biarritz

The fabulous History of "The Biarritz Aquarium" : The Passionate and Persuasive Marquis Alexandre Guillaume Léopold de Folin embarked on intensive Scientific Activities and managed to convince the French Authorities to launch the first Scientific Campaign on board the "Travailleur" to explore the Depths of the Bay of Biscay. The Marquis de Folin declared that a "Seat of Learning" should be created "that will become a Centre upon which People will converge from all parts of the World". This Idea lay the Foundations for the Biarritz Aquarium, which was one of the first French Establishments where Oceanography was spoken about to a Public that was becoming increasingly enthusiastic about the fascinating World of the Oceans... The Biarritz Aquarium Extension opened in 2011 and now offers Visitors a more In-Depth Tour along the Gulf Stream, the Caribbean Sea, the Indo-Pacific region...The Scenography has been changed, the Surface area has doubled (from 3,500 m2 to 7,000 m2), more Aquariums have been added, there is one of the largest Pools in France (1,500 m3), a Caribbean Lagoon... (<https://www.aquariumbiarritz.com>)

The Universes of "The City of the Ocean" : Listen, Touch, Feel and Dive into the Depths of the Ocean through interactive and 360° Immersive Experiences, Playful Devices, 3D Animations, Surf Simulators will turn your Trip into an exciting Odyssey : finding out more

about the Blue Planet. (<https://www.citedelocean.com>).

A Unique Feature of this Area is its Proximity and Natural Cooperation with three Spanish Autonomous Provinces: Euskadi, Navarre and Aragon. Across the Valleys, there have long been Daily Contacts between its Peoples that have left Historical Legacies that continue to this Day. The Basque Country has a Vibrant Linguistic and Cultural Heritage that is Exceptional and Unique. Euskara, the Basque language, is the Oldest Living Language in Europe. It's the Official Language of the Spanish Part of the Basque Country where, from Pamplona to Bilbao, more than 2.5 million People live. It has also seen a renewed Interest in the French Basque Country where nearly half of School Pupils now learn it. Basque Identity is as Linguistic as it is Cultural and Gastronomic. It inspires the South West of France and far beyond.

Another particularity of the Basque Country is the Eusko, a Currency created in 2013, which addresses both Ecological and Solidarity Concerns. It allows Professionals and Consumers to be part of a more Sustainable Approach that protects the Basque Language, Small-Holding Farmers, Local Businesses and the Environment. Basque People have settled across Five Continents. Basque Centres, Euskal Etxeak, create Thousands of Sociocultural Activities each year to keep the Basque Culture alive: Dance, Language, Songs, Gastronomy and Traditional Games. With its Population on average increasing 0.6% annually, Nouvelle-Aquitaine is one of the most Populated Regions in France. Even if Newcomers are often Young Parisian Graduates who settle mainly in the Metropolis of Bordeaux, there is also significant Movement across the Region from Bordeaux to the Landes, Charente-Maritime, Vienne and of course the Basque Country, where more than 9,000 People a year arrive.

The Basque Country and the Nouvelle-Aquitaine Region are both labelled Positive Energy Territories. Biarritz and the Basque Coast are investing in Blue Growth in Marine and Maritime Employment Sectors. This involves the Production of Renewable Energy at Sea and the valorisation of Marine Bio-Resources, including maintaining and revitalising Traditional Maritime Activities, Fishing, Aquaculture, Port Operations, Tourism and Water Sports.
